

Frequently Asked Questions

Topic: ColorCAMM PRO PC-600

ST502200

How to change the Printing Mode 1 and Printing Mode 2?

Printing Mode 1 (Default) :

The printing mode dedicated to prevent the snapping ribbon problem prior to the printing quality.

The printing result could become lighter or more scratchy.

Printing Mode 2 :

This printing mode has a better printing quality compared to the Printing Mode 1. Using this mode could result in the snapping ribbon problem.

<To set Printing Mode 1>

Turn on the secondary power SW while pressing the [HEAD CLEANING] and [DOWN ARROW] keys.

<To set Printing Mode 2>

Turn on the secondary power SW while pressing the [HEAD CLEANING] and [UP ARROW] keys.

You can recognize Printing Mode 1 and Printing Mode 2 by checking the system report.

Please check the System SW bit-3.

If it is 0, the machine is set as Printing Mode 1.

If it is 1, the machine is set as Printing Mode 2.
