Notify the appropriate authorities immediately. Take all additional action necessary to prevent and remedy the adverse effects of the spill. Absorb spill with sand or earth then place in a chemical waste container.

6.1. Personal precautions
Evacuate personnel, thoroughly ventilate area, use self-contained breathing apparatus and wear appropriate personal protective equipment.

6.2. Environmental precautions
Wipe off spillage. Prevent liquid from entering sewers, waterways or low areas.

6.3. Methods for containment
Dike spilled product.

6.4. Methods for Clean-up
Sweep up material and dispose as waste following local regulations. Scrub contaminated area with detergent and water.

6.5. Other information
No information
6.6. Spill or leak statements by type of chemical
  Eliminate all ignition sources. Use appropriate personal protective equipment (PPE). Absorb and/or contain spill
  with inert sand, then place in suitable container. For large spills; use water spray to disperse vapers and dilute spill
  to a nonflammable mixture. Do not flush to sewer. Prevent run-off from entering drains, sewers or waterways.

7. Handling And Storage
7.1. Handling
  Avoid contact with eyes, skin and clothing. Use proper ventilation and no fire in work place. Keep out of reach of children
  and do not drink. Do not dismantle container. Make sure cartridge is dry before insertion into printer housing.

7.2. Storage
  Do not store the product in high or freezing temperatures. Keep the product out of direct sunlight. Do not store the product
  with oxidizing agents or explosives.

4.1. First aid procedures
   Eye In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Hold eyelids open during flushing. Call a physician.
   Skin In case of contact, immediately flush with plenty of water while removing contaminated clothing and shoes. Call a physician. Wash contaminated clothing before reuse.
   Inhalation If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician.
   Ingestion If swallowed, DO NOT induce vomiting. Seek immediate medical advice.

4.2. Note to physicians
   May cause skin and eye irritation. Excessive inhalation of mist will cause respiratory irritation.

5. Fire Fighting Measures
5.1. Flammable properties:
   Flash Point: about 71 deg.C (closed cup)

5.2. Extinguishing media
   Suitable extinguishing media:
     Water spray, dry chemical, CO₂ or foam.
   Unsuitable extinguishing media:
     No information

5.3. Protection of fire fighters
   Special hazards arising from the substance or mixture
     Toxic and irritating fume and/or gases may generate by combustion.

   Protective equipment and precautions for firefighters
     Wear self-contained breathing apparatus (SCBA) and full protective equipment.
     Applying direct water may be dangerous because fire may expand to surroundings.

6. Accidental Release Measures
6.1. Personal precautions
   Evacuate personnel, thoroughly ventilate area, use self-contained breathing apparatus and wear appropriate personal protective equipment.

6.2. Environmental precautions
   Wipe off spillage. Prevent liquid from entering sewers, waterways or low areas.

6.3. Methods for containment
   Dike spilled product.

6.4. Methods for Clean-up
   Sweep up material and dispose as waste following local regulations. Scrub contaminated area with detergent and water.

6.5. Other information
   No information
6.6. Spill or leak statements by type of chemical

Eliminate all ignition sources. Use appropriate personal protective equipment (PPE). Absorb and/or contain spill with inert sand, then place in suitable container. For large spills; use water spray to disperse vapers and dilute spill to a nonflammable mixture. Do not flush to sewer. Prevent run-off from entering drains, sewers or waterways.

7. Handling And Storage

7.1. Handling

Avoid contact with eyes, skin and clothing. Use proper ventilation and no fire in work place. Keep out of reach of children and do not drink. Do not dismantle container. Make sure cartridge is dry before insertion into printer housing.
